COLETTA Acoustic light

Coletta incorporates an ultra-minimalist approach to acoustic optimization. This equally effective and simple concept is nothing more than a set of geometric building blocks of light-weight Basotect flocked absorption foam, which are strung on a wire suspended light bulb. There is a choice of different designs and different colours, to create exciting combinations.

Application

- Ceiling

Properties

- Sound Absorbing
- Lightweight
- High aesthetic value

Mounting

Installation is very simple as each unit is hung individually, with the height easily adjustable.

Cleaning

Can be dusted daily with vacuum cleaner.
