FRANKLIN Acoustic wall panel

With the name Franklin you might rightly think about Benjamin, the form of this model being a nod to his kite experiment. Fortunately this model will not attract lightning, but will certainly absorb disturbing soundwaves and create a pleasant internal climate. The Franklin is an acoustic panel that is easy to assemble and can be combined in desired forms and colours.

Application

- Wall

Properties

- Sound Absorbing
- Lightweight
- High aesthetic value

Mounting

Installation is very easy as each unit is hung individually.

Cleaning

Can be dusted daily with vacuum cleaner.
