GROPIUS Acoustic wall light unit

Four interwoven square shapes, 3 of which are acoustic and 1 lighting, are processed according to well-balanced proportions into a rigid composition that refers to the principles of architectural modernism. The design lends itself for installation on both ceilings and walls, and can also be used modularly, combining multiple units into more large-scale configurations.

Application

- Wall
- Ceiling

Properties

- Sound Absorbing
- Lightweight
- High aesthetic value

Mounting

Installation is very easy as each unit is hung individually.

Cleaning

Can be dusted daily with vacuum cleaner.

Technical specifications

Size
W 1100 mm; H 1200 mm;
T 160 mm

Base Material
Basotect absorption foam
& Polycarbonate

Colour & Finish
See colour chart; Flock

Light unit
Talexx module stark,
QLE830, 350mA

Colour temperature
3000 or 4000 K

Sound absorption foam
NRC 0,95

Extra

Dali or switch dimmable

Connection panel available for joining multiple units
