

# TECHNICAL DATA SHEET

## MODEL

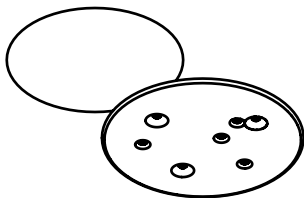

# KEPLER

## TYPE AND FINISH

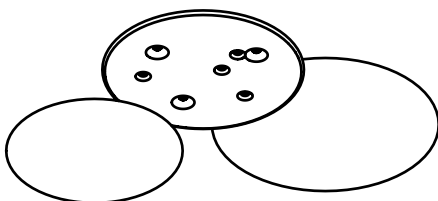

| Size                             | Type                   | Finish |
|----------------------------------|------------------------|--------|
| 1360x205 mm<br>or<br>2100x295 mm | Acoustic ceiling light | Flock  |

|                           |                                                        |
|---------------------------|--------------------------------------------------------|
| <b>Base material</b>      | Sound absorption foam                                  |
| <b>Flock colour</b>       | See colour chart                                       |
| <b>Light source</b>       | Talex module SLE 930<br>250 mA , 7280 lumen, 61,6 Watt |
| <b>Colour temperature</b> | 3000 or 4000 K                                         |
| <b>Options</b>            | Standard DALI and switch dimmable                      |

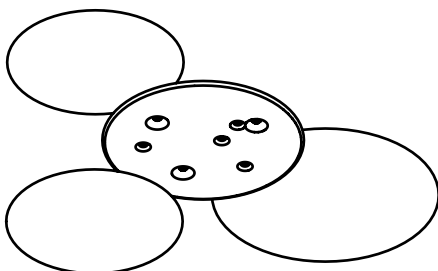

| Sound absorption foam                     |               |
|-------------------------------------------|---------------|
| NRC 0,9                                   |               |
| Absorption area RT60 frequency 250-2000Hz |               |
| Kepler 2                                  | 1,46 m2 sabin |
| Kepler 3                                  | 3,31 m2 sabin |
| Kepler 4                                  | 2,74 m2 sabin |
